HOW TO USE YOUR
DIGITAL PREMIUM TICKET

HOW TO USE YOUR DIGITAL PREMIUM TICKET

Ahead of arriving to the stadium, please make sure your digital ticket is downloaded to the wallet of the mobile device you will be using to gain entry to the stadium.

Once your premium ticket is saved in your digital wallet, you do not need internet access to use it - but your device must be switched on, so please make sure your phone has charge before arriving to the stadium.

1. Download your ticket to your Apple or Google wallet.

2. To enter the stadium, open your Digital Wallet, select your Premium Ticket and hold your phone near the contactless reader located at the top of the turnstile.

- A green light indicates a valid Adult ticket.
- An amber light indicates a valid Concession or Junior ticket.
- A red light means entry was unsuccessful.

3. If the light turns red, please step away from the queue and speak to the nearest Premium Host for assistance.

WHAT HAPPENS IF MY DIGITAL TICKET FAILS TO READ AT THE TURNSTILE?

Apple Users:
Tap the three dots in the top-right corner of your pass/ticket.
Select 'Pass Details' to display the QR code.

Android Users:
Tap 'Show Code' beneath the pass/ticket to reveal the QR code.

Note: This should only be done if your phone doesn't respond at the turnstile.

If a red light appears, it indicates your ticket is invalid and the issue will require further investigation. Please speak to a Premium Host for assistance.

We look forward to welcoming you to Hill Dickinson Stadium.
